

BRAVO RESEARCH GROUP INC.

Byron,

I want to thank you and tell you how much I value and appreciate the outstanding security that Bravo has provided in the aftermath of the Palisades Fire.

My home was very vulnerable as we were the only house standing on our side of the street and we were surrounded by burned out homes and there was easy access to our home from unburned portions of the Palisades. As a result, we were constantly seeing looters, simple tourists, and on several occasions, armed robbers. It is very clear that the presence of Bravo was the single reason that our home was spared and my family safe.

Your staff, without exception, was highly qualified and prepared and also polite and thoughtful in dealing with the parade of people coming into our neighborhood. I have spent a lot of my life in dangerous and difficult places and I know what it takes to protect a person and property. Your people are the best I have ever seen and I slept well at night knowing they were on watch.

You and your people will always be welcome at my home where the coffee is always on and there are fresh cookies in the oven.

Bless you and thank you,

Dale Laurance // OXY PETROLEUM
Palisades, California
